

Assignment of students to nearest available school with grade-level capacity, per MOE regulations
 Additional 20 rooms of capacity are added in FY 2012 for CB (5); JKP (5) and PH (10); does not show impact of building construction at PH, JH, or CK
 Based on moderate growth projections
 Holds school size to under 750 students for base school where possible; no transfers in if enrollment is above 700; holding school size to fewer students would require additional capacity at the smaller schools
 Assumes no students return to sending school once space is available
 Numbers in parentheses are negatives; if there is a negative in the surplus (deficit) column it means there is not room at this school and grade level for the number of children shown.
