B. Successes

Please describe your SHAB’s two greatest accomplishments this school year. What were your goals and what projects/activities were used to meet the identified goals? How many students did it impact? Who were your community partners? Add an additional sheet, if necessary.

The greatest accomplishments of SHAB this school year were in the areas of member participation, School Health Policy and Procedure, Physical Education/Activity and School Nutrition.
1. The committee was successful in accomplishing a variety of goals due to it's flexible meeting schedule that provided the opportunity for the appointed School Board Liaison to participate and convey our recommendations to the School Board.
2. One recommendation proposed to the School Board was the revision of the district's PPD policy as a school entry requirement. The School Board approved the policy revision and will implement a TB awareness/educational component in its school registration process.
3. The ACPS SHAB gave support to the Physical Education Program in their successful efforts to obtain the the Carol M. Whit PEP Grant award. Funding from the grant went to erecting tread and climbing walls within the schools, securing heart rate monitors, launching a bicycle program and providing pedometers for every child in the district participating in physical education.
4. The committee provided recommendations in support of the efforts of the district's Food Services Program and continues to support their Nutrition Integrity Proposal .
