*To the best of my knowledge, all information on this survey is true and all income is reported. I understand the district/school may receive federal state funding based on the information provided. I understand that school officials may verify income. This survey will not affect a child's school meal benefits; it will help the school/district measure and support student success.*

\* Income means income before deductions such as taxes, Social Security taxes, insurance premiums, charitable contributions and bonds. It includes the following: 1) monetary compensation for services, including wages, salary, commissions or fees; 2) net income from non-farm self-employment; 3) net income from farm self-employment; 4) Social Security; 5) dividends or interest on savings or bonds or income from estates or trusts; 6) net rental income; 7) public assistance or welfare payments; 8) unemployment compensation; 9) government civilian employee or military retirement, or pensions or veterans' payments; 10) private pension or annuities; 11) alimony or child support payments; 12) regular contributions from persons not living in the household; 13) net royalties; and 14) other cash income. Other cash income would include cash amounts received or withdrawn from any source including savings, investments, trust accounts and other resources. "Income" as used here does not include any income or benefits received under any federal programs, which are excluded from consideration as income by any legislative prohibition, for example, the value of benefits received under the Supplemental Nutrition Assistance Program (SNAP).
