

## BUILDINGS AND GROUNDS MANAGEMENT AND MAINTENANCE

The Superintendent has the general responsibility for the care, custody, and safekeeping of all school property, and will maintain a program of preventive maintenance. The principal of each school in coordination with the Office of Educational Facilities will be responsible for the operation, supervision, care, and maintenance of the school plant.

Each school maintains records of regular safety, health and fire inspections that have been conducted and certified by local health and fire departments. The frequency of such inspections is determined by the School Board in consultation with the local health and fire departments. In addition, the school administration equips all exit doors with panic hardware as required by the Uniform Statewide Building Code.

The school division maintains documentation of any pesticide application that includes the target pest, the formulation applied, and the specific location of the application.
