

## SCHOOL LIBRARY MEDIA CENTERS

The primary function of a school's library media center is to implement, enrich and support the educational program of the school. The center provides a wide range of materials at various levels of sophistication with a diversity of appeal and the presentation of different points of view.

To this end, the School Board declares that the primary responsibilities of the library media center are:

1. To provide materials that will stimulate the acquisition of factual knowledge and the development of literary appreciation, aesthetic values and ethical standards;
2. To provide a source of information which when consulted may enable pupils to make informed judgments;
3. To provide materials containing a wide range of views on issues so that students may develop the practice of critical reading and thinking;
4. To provide materials representative of religious, ethnic, and cultural groups and their contribution to American heritage; and,
5. To place principle above personal opinion and reason above prejudice in the selection of materials of the highest quality to assure a comprehensive collection appropriate for the users of the library media center.

Each school shall provide a variety of materials and resources in its library media center to support the instructional program.
