## Appendix A: TC Williams Teacher and Staff Survey Results

## Methodology

On September 18, 2012, Hanover Research invited all current staff members to complete a survey online. If a staff member did not work at either of TC Williams' two campuses (Minnie Howard and King Street) in 2011-2012, then he or she was subsequently disqualified. In an attempt to encourage broader participation, Hanover Research sent reminders on September 21, 2012 and September 24, 2012 to any staff members who had not completed the survey as of those dates. Out of a total of 438 staff members invited, Hanover Research received responses from 221 persons, a response rate of approximately 50.5 percent. Of the 221 respondents, 195 (or 88 percent) completed the entire survey. The remaining 26 ( 12 percent) only answered some of the questions.

## Responses

What campus did you primarily work at during the 2011-2012 school year?
Figure A.1: Primary Campus (by Role)

## Which best describes your role at TC Williams in the 2011-2012 school year?

Figure A.2: Respondents by Role

| Role | PERCENTAGE OF RESPONDENTS |
| :---: | :---: |
| Classroom Teacher | $63 \%$ |
| Counselor | $6 \%$ |
| ELL Teacher | $6 \%$ |
| Instructional Assistant | $0 \%$ |
| Instructional Coach | $1 \%$ |
| School Administrator or Staff Member | $10 \%$ |
| Special Education Teacher | $6 \%$ |
| Other | $7 \%$ |
| 205 |  |

Persons who selected "Other" cited the following roles. In all cases, the number of responses provided equaled one, with the exception of "Librarian" (for which $n=2$ ).

- Administrative Assistant I
- Bilingual Parent Liaison
- Librarian
- Library Circulation Assistant
- Mentor
- Program Coordinator
- Social Worker
- Special Education ED Coordinator
- Substitute
- Support Specialist II
- Support Staff
- Technology Integration Specialist

Classroom Teachers: What subject area(s) did you teach at TC Williams during the 20112012 school year? (Select all that apply)

Figure A.3: Subject(s) Taught

| SuBject | Percentage Of Respondents |
| :---: | :---: |
| Art | $3 \%$ |
| English | $18 \%$ |
| Marketing | $2 \%$ |
| Mathematics | $16 \%$ |
| PE/Health | $5 \%$ |
| Science | $16 \%$ |
| Social Studies | $16 \%$ |
| Technology/Trade and Industrial Education | $9 \%$ |
| World Languages | $9 \%$ |
| Other | $9 \%$ |
| 129 |  |

Persons who selected "Other" cited the following subjects. In all cases, the number of responses provided equaled one, with the exception of "CTE" and "Reading" ( $n=2$ for both subjects).

- CTE
- Communication Skills
- Debate
- Drama
- Early Childhood Education Coordinator
- Family and Consumer Sciences
- HGD
- Health and Medical Sciences
- Public Speaking
- Reading
- Special Education

Classroom Teachers: What grade(s) did you teach at TC Williams during the 2011-2012 school year? (Select all that apply)

Figure A.4: Grades Taught (by Role)

How many years of experience working in an educational setting do you have? (Through the 2011-2012 school year only)

Figure A.5: Years of Educational Experience (by Role)

| EXPERIENCE | ROLE |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | TOTAL | Counselor | ENGLISH TEACHER | MATHEMATICS TEACHER | OTHER |
| 1 year | $3 \%$ | $0 \%$ | $4 \%$ | $0 \%$ | $3 \%$ |

## Individual Achievement Plans (IAPs)

Did you participate in the creation or fulfillment of a student's Individual Achievement Plan (IAP) during the 2011-2012 school year?

Figure A.20: IAP Participation (by Role)

Persons who selected "Other" cited the following roles. In all cases, the number of responses provided equaled one, with the exception of "Special Education Teacher" ( $n=2$ ).

- Administrator
- ELL Teacher
- FACS
- Special Education Teacher

The following questions applied to persons who responded "yes" to the previous question regarding IAP participation.

Please describe your role in IAPs (select all that apply.
Figure A.21: Role in IAPs ( $\mathrm{n}=64$ )

On average, how many hours per week did you spend creating content for 2011-2012 school year IAPs? (If none, enter 0.)

## Do you have any comments to share about Individual Achievement Plans?

Respondents shared the following thoughts and suggestions in reference to student IAPs:

- Provide teachers with sufficient time to prepare fully
- Distribute IAPs to all of a student's teachers
- Little or no monitoring of IAPs occurred
- Not taken seriously by students
- No consequences for students who do not achieve or make progress toward goals
- TC needs to provide students with resources to help identify interests and define goals.
- In the future, perhaps include teachers of additional subjects as well (e.g., science and social studies)

## $5^{\text {Th }}$ Period for Mathematics and English Teachers

The following questions only applied to persons who identified as Mathematics or English teachers.

During the 2011-2012 school year, how often did you use $5^{\text {th }}$ period time for the following purposes.

Figure A.38: "Creating IAPs"

| Frequency | RoLe |  |  |  |  |

| n | 19 | --- | 13 | 6 | --- |

Respondents who selected "Other" listed the following activities as usage of 5 th period time.
Two respondents claimed not to have $5^{\text {th }}$ period time.

- AP preparation
- Collaborating with colleagues
- Conducting Drama Department business
- Designing lessons
- E-mailing
- Meeting with colleagues
- Observing other teachers
- Setting up electronic writing portfolio
- SOL focused
- Working in the Writing Center
- Working on National Board Certification

Please provide your feedback on the $5^{\text {th }}$ period time that you had during the 2011-2012 school year.

Respondents made the following comments and suggestions regarding $5^{\text {th }}$ period:

- Extremely appreciative of the additional time to prepare lessons
- Added time to grade student work enabled teachers to give students individualized and more extensive feedback
- Created time to prepare IAPs and hold meetings with students and parents
- Facilitated collaboration with colleagues
- Allowed teachers to observe one another in the classroom
- Permitted teachers to work with struggling students individually or in small groups
- Some teachers noted that $5^{\text {th }}$ period meant fewer, but noticeably larger, classes.
- Other teachers mentioned not having a $5^{\text {th }}$ period, due to a continued need to teach five classes.

## The following question only applied to counselors.

Did you have a reduced case load in the 2011-2012 school year (as compared to the 20102011 school year)?

Figure A.45: Change in Counselor Case Load during 2011-2012

Please provide your feedback on the reduced Counseling caseloads during the 2011-2012 school year.

Respondents shared the following feedback in reference to reduced Counseling caseloads:

- Counselors clearly welcomed the reduced caseloads.
- Fewer cases led to more attention paid to individual students
- A few counselors noted that meetings and administrative and clerical tasks require a significant amount of time.
- Several counselors also expressed a continued need to work additional time in the evening and on the weekends, in order to fulfill all responsibilities.

## Teacher Responses to Select IAP and 5 ${ }^{\text {Th }}$ Period Questions

In the following graphs, we illustrate the relationships between reported usage of $5^{\text {th }}$ Period time for IAP creation and teachers' opinions on various aspects of the IAP process. We provide separate analyses of the responses provided by English and mathematics teachers.

## English Teachers

Approximately how many hours of professional learning time did you participate in during the 2011-2012 school year?

Figure A.66: Average Hours of Professional Learning Time (by Role)

To what extent did you achieve your PLP goals for 2011-2012?
Figure A.67: Achievement of PLP Goals (by Role)

Do you have any comments to share about your Professional Learning Plan?
Respondents provided the following feedback on PLPs:

- Supervising coaches offered valuable suggestions without making teachers feel deficient
- The data-driven component proved especially useful for teachers of courses with formal exams (e.g., Advanced Placement).

However, respondents also shared the following thoughts:

- Already motivated without formally stating goals in a PLP
- The administrative requirements associated with PLPs actually detract from the time paid to strengthening teaching practices and preparing for classroom instruction.
- Suggest that the school reduce the amount of time involved in PLP administration and documentation and increase the amount of time allocated to implementation
- Allow greater flexibility in the format and structure of PLPs
- Administrators provided little feedback or follow-up, leaving some teachers feeling that the PLPs lacked importance
- Have periodic "check-ins" during the year
- Clarify how student achievement will be measured and monitored

## Student Assessment Data

How important were the following student assessments to your understanding of student progress and achievement during the 2011-2012 school year?

Figure A.68: Scholastic Reading Inventory (SRI)

Respondents who replied "Other" cited the following alternative forms of assessment. Formative and summative assessments received the most mentions.

- Artwork
- ASVAB
- Fitness testing
- IEP data
- Laboratories
- NOCTI
- NRF customer service test
- Oral and writing
- Peer evaluation
- Performance in class
- Portfolio
- Princeton Review assessment
- Segmentation testing
- Summative and Formative assessment
- Transfer tasks
- VA competency forms
- VAAP
- WIDA scores
- WPRS and certification test
- Workplace readiness skills

How satisfied were you with the use of student achievement data in making school-wide instructional decisions at TC Williams?

Figure A.82: Satisfaction with School-wide Use of Student Achievement Data (by Role)

How satisfied were you with the use of student achievement data in making instructional decisions within your department at TC Williams?

Figure A.83: Satisfaction with Departmental Use of Student Achievement Data (by Role)

How often did you utilize student achievement data in your own instructional decisionmaking?

Figure A.84: Personal Use of Student Achievement Data (by Role)

Do you have any comments to share about the use of student assessment data at TC Williams?

Respondents offered the following feedback in reference to student assessment data:

- Need more formative and diagnostic testing
- Tests do not always adequately measure the knowledge and skills contained in the curriculum.
- Teachers often lacked access to student data.
- Data not used effectively
- Not enough emphasis on providing feedback to students (i.e., identification of areas for improvement)
- The nature of achievement and progress vary across subjects. The school needs to acknowledge such differences.

## Writing and Mathematics Centers

Have you participated in the Writing and Mathematics Centers as a teacher?

Do you have any comments to share about your experience with the Writing Center?
Respondents shared the following thoughts with respect to the Writing Center:

- An excellent resource
- Re-enforces the content taught in the classroom
- Provides valuable support to students struggling with coursework
- A safe, encouraging environment in which students feel comfortable seeking help
- Deserves more funding and personnel

At the same time, however, a few respondents noted that:

- Not enough students attend
- Many students visiting the Writing Center are already highly-motivated and highachieving.
- Many teachers still prefer to work with their own students after school, as opposed to referring them to outside assistance.

Do you have any comments to share about your experience with the Mathematics Center?

Respondents provided the following feedback regarding the Mathematics Center:

- Another excellent resource made available to students
- Teachers appreciate the opportunity to work with and get to know students from other classes.
- Applaud the inclusion of peer tutoring

Yet, respondents also commented that:

- Not enough students attend
- Needs to remain open after school to accommodate students unable to visit during lunch period
- The Mathematics Center needs teachers capable of working with disabled or special education students.

## Brainfuse

| n | 74 | 9 | 11 | 9 | 45 |

Do you have any comments to share about your experience with Brainfuse?

Respondents offered the following thoughts in relation to Brainfuse:

- A useful resource for students who need assistance outside of the school day
- Excellent feedback from students with respect to the help received from Brainfuse tutors
- Encourage wider usage
- Provide brief sessions demonstrating the resource to students

## Titan Time

The following questions only applied to staff members who worked on TC Williams' main King Street campus in 2011-2012.

Please indicate your level of agreement with the following statements about Titan Time.

What is your opinion on the size of Titan Time classes during the 2011-2012 school year?

Figure A.109: Opinion on Size of Titan Time Classes (by Role)

What is your opinion on the length of Titan Time during the 2011-2012 school year?

Figure A.110: Opinion on Length of Titan Time (by Role)

## Do you have any comments to share about your experience with Titan Time?

Respondents made the following comments regarding Titan Time:

- Titan Time represents an excellent idea.
- The program creates opportunities for students to receive much-needed assistance.
- Titan Time succeeds when students arrive motivated to participate and learn.

At the same time, however, respondents made the following criticisms and offered the following suggestions for improvement:

- The school needs to make attendance mandatory.
- Titan Time cuts into valuable class time.
- Many classes proved too large and unwieldy.
- Teachers spent too much time addressing disciplinary and behavioral problems, as students failed to take the sessions seriously.
- Administrators need to seek teachers' input when making assignments
- Teachers prefer to work with their own students.

## Titan Up

The following questions only applied to staff members who worked on TC Williams' main King Street campus in 2011-2012.

Did you provide tutoring to students through the Titan Up program during the 2011-2012 school year?

Figure A.111: Titan Up Participation (by Role)

Overall, how would you rate the quality of Titan Up as a resource for improving student academic success?

Figure A.112: Overall Rating of Titan Up (by Role)

| n | 147 | 10 | 19 | 15 | 103 |

Do you have any comments to share about your experience with Titan Up?
Respondents shared the following thoughts with respect to Titan Up:

- Effective when taken seriously by students

However, respondents also voiced criticisms and made the following recommendations for improvement:

- Make expectations clearer
- Enforce attendance
- Make teachers from all subject areas available to students
- Enable teachers to work with their own students
- Proper remediation requires longer sessions
- Decrease class sizes

## Titan Choice

The following questions only applied to staff members who worked on TC Williams' main King Street campus in 2011-2012.

In what capacity did you participate in Titan Choice? (Select all that apply)

Figure A.113: Nature of Participation in Titan Choice (by Role)

| n | 170 | 9 | 21 | 18 | 122 |

Do you have any comments to share about your experience with the Saturday Learning Academy?

Respondents shared the following comments:

- Poor student attendance
- Make attendance mandatory
- More focused on discipline than remediation
- Distinguish between students attending for disciplinary and academic reasons
- Make the sessions more formal with better-defined objectives

## Staff Recognitions

Did you receive any of the following recognitions during the 2011-2012 school year? (Select all that apply)

Figure A.127: Staff Recognitions (by Role)

Please briefly describe how you used the Mini-Grant Funds and any outcomes.

Respondents used Mini-Grants in the following ways:

- Acquire books (e.g., Advanced Placement study guides for students unable to afford such resources)
- Purchase clothing and equipment for after-school dance club
- Field trip to see a math play ("Eureka")

Please rate your level of agreement with the following statements related to the MiniGrants and Titan Transformer Awards.

Figure A.128: "The process for awarding Mini-Grants was transparent."

## Do you have any suggestions for improving the Mini-Grant Awards?

Respondents offered the following suggestions:

- Increase the publicity, as many staff lacked awareness
- Make the criteria for the awards clear and more widely known
- To increase fairness, increase the transparency of the selection process
- Applicants who did not receive awards request an explanation, in order to improve their applications for the next cycle

## Do you have any suggestions for improving the Titan Transformer Awards?

The suggestions provided echoed many of the thoughts expressed in the context of the Mini-Grant Awards. In particular, respondents offered the following suggestions for the Titan Transformer Awards:

- Educate staff with respect to the selection process and the criteria for allocating awards
- The process appears subjective (i.e., a "popularity contest") as opposed to based on objective criteria
- Increase transparency
- Provide more in-depth discussion of what the honorees did to warrant recognition
- Make the awards more inclusive and provide greater recognition to teachers of noncore courses, support staff, and administrators

What is your overall impression of the Transformation Process at TC Williams?
Respondents characterized the positive aspects of the Transformation Process as follows:

- Rewarding, though difficult and painful at various times
- Progress definitely made
- Better discipline and school climate
- Improvements in student attitude and performance
- Created opportunities to explore different approaches to teaching and serving students
- School benefited from additional resources in terms of personnel and programs

Yet, respondents also noted some criticisms of the Transformation process and made suggestions as follows:

- Much work remains
- Need to accept that change takes time
- Difficult to get students with poor attendance and behavior to achieve
- Achievement gap between high-income and low-income students persists
- Too many initiatives
- TC needs to concentrate resources and efforts on a few key interventions
- Too much classroom time lost to various forms of testing
- Too much emphasis on the SOLs
- Most teachers and staff already worked hard and committed themselves to student success. To such personnel, the transformation process often feels punitive.
- The process appears disjointed and lacks a coherent vision.

## What do you believe have been the most successful aspects of the Transformation Process at TC Williams?

Among the most successful components of the Transformation Process, respondents cited the following:

- Improved discipline
- Data-driven decision-making
- Additional teachers
- Teacher collaboration
- Reduced caseloads for counselors
- More academic supports for students (e.g., Writing and Mathematics Centers)
- Encouragement of teachers and staff connecting with students
- Shared goal of student success
- Re-organization of school administration (e.g., grade-level deans)
- Principal Maxey's enthusiasm and dedication

## Do you have any suggestions for improvements at TC Williams?

Some of the most frequently-stated suggestions for improvement included the following items:

- Greater transparency
- Better communication at all levels
- Listen to alternative viewpoints and dissenting voices
- Give teachers and students more of an active role in the Transformation Process
- Focus on the school's primary mission: instruction
- Smaller class sizes
- Encourage and reward innovation
- Increase funding of academic supports for students
- Focus efforts on a few targeted interventions (i.e., quality as opposed to quantity)
- More effective use of student data
- Better enforcement of attendance policies
- Continue to strengthen disciplinary policies

## Appendix B: TC Williams Student Survey RESULTS

## Methodology

On September 18, 2012, Hanover Research invited all currently-enrolled students who also attended the school in 2011-2012 to complete the following survey online. The population of survey participants did not include the graduating class of 2011-2012 (i.e., students who attended TC Williams last year and subsequently graduated). Students were informed of the survey's availability through a letter of invitation sent to each student's school e-mail address. To facilitate participation, the school provided students with time to complete the survey during an Advisory Period on the morning of September 18, 2012. At various times during the following week, TC Williams staff made several announcements reminding students of the survey's continued availability. Hanover Research also sent reminders on September 20, 2012 and September 25, 2012 to any students who had not completed the survey during the initial Advisory Period. Out of a total of 2,210 students invited, Hanover Research received complete or partial responses from 1,100 persons, a response rate of roughly 49.8 percent. Of the 1,100 respondents, 1,028 (or 93.5 percent) completed the entire survey. The remaining 72 ( 6.6 percent) only answered some of the questions.

## Demographics

As seen in Figure B.1, relative to the total population of invited students, a slightly higher share of survey participants attended Minnie Howard last year. Accordingly, students who either attended the main King Street campus or had an interim education placement accounted for somewhat lower percentages of actual survey respondents.

Figure B.1: Survey Participation and School Attended in 2011-2012

As seen in the following table, compared to the total population of invited students, survey participants included higher percentages of last year's $9^{\text {th }}$ and $11^{\text {th }}$ grade students and lower shares of $10^{\text {th }}$ and (subsequently retained) $12^{\text {th }}$ grade students, though these differences are relatively small.

Figure B.2: Survey Participation and 2011-2012 Grade Level

| Grade | All Invited Students | SURVEY Participants | Non Participants |
| :---: | :---: | :---: | :---: |
| 8 | $0.4 \%$ | $0.0 \%$ | $0.7 \%$ |
| 9 | $34.6 \%$ | $34.8 \%$ | $34.3 \%$ |
| 10 | $34.1 \%$ | $32.5 \%$ | $35.7 \%$ |
| 11 | $30.4 \%$ | $32.6 \%$ | $28.2 \%$ |
| 12 | $0.5 \%$ | $0.0 \%$ | $1.0 \%$ |
| n | 2,205 | 1,100 | 1,105 |

Figure B. 3 illustrates the fact that, despite accounting for 49.4 percent of invited students, females actually represented 51 percent of survey respondents (a 1.6 percent difference).

Figure B.3: Survey Participation and Gender

Figure B. 4 reveals the extent to which survey participants differed from the total population of invited students with respect to ethnicity. Overall, survey participants included a slightly higher share of Asian and white students. Asian students accounted for 6.6 percent of participants, whereas white students represented 27.5 percent-increases of 1.3 percent and 5 percent, respectively, in comparison to the two groups' population shares. In contrast, black and Hispanic students were slightly underrepresented among survey participants. Black students submitted 35.2 percent of all responses, and Hispanic students supplied 26.6 percent-decreases of 2.3 percent and 4.7 percent, respectively, relative to the two groups' population shares.

Figure B.4: Survey Participation and Ethnicity

| ETHNICITY | ALL INVITED STUDENTS | SURVEY PARTICIPANTS | NON PARTICIPANTS |
| :---: | :---: | :---: | :---: |
| American Indian | $0.5 \%$ | $0.5 \%$ | $0.5 \%$ |
| Asian | $5.3 \%$ | $6.6 \%$ | $4.0 \%$ |
| Black | $37.5 \%$ | $35.2 \%$ | $39.8 \%$ |
| Native Hawaiian | $0.5 \%$ | $0.7 \%$ | $0.3 \%$ |
| Hispanic | $31.3 \%$ | $26.6 \%$ | $36.0 \%$ |
| White | $22.5 \%$ | $27.5 \%$ | $17.6 \%$ |
| Other | $2.4 \%$ | $2.7 \%$ | $2.0 \%$ |
| n | 2,209 | 1,100 | 1,109 |

Figures B. 5 and B. 6 indicate that survey participants also included lower concentrations of both special education students and students with limited proficiency in English (LEP). Although 12 percent of all invited students, special education students submitted less than 10 percent of all survey responses. An even wider gap between population and participant shares appeared in the case of LEP students. LEP students accounted for 15.2 percent of survey participants, a reduction of 4.5 percent in comparison to the share of LEP students among the total population of invitees.

Figure B.5: 2011-2012 Special Education Status

Figure B.6: 2011-2012 LEP Status

Similarly, as seen in Figure B.7, relative to the total population of invited students, students who are economically disadvantaged (or students eligible for free or reducedprice lunches) comprised a smaller share of survey participants. In particular, despite accounting for 61.1 percent of all invitees, students who are economically disadvantaged submitted 54.5 percent of survey responses, a difference of 6.6 percent.

Figure B.7: Survey Participation and 2011-2012 Eligibility for Free or Reduced-Price Lunches

Lastly, Figure B. 8 demonstrates that survey participants generally performed better academically in 2011-2012, as measured by student grade point average (GPA), than nonparticipants. More specifically, the mean 2011-2012 GPA for survey participants equaled $3.01,0.36$ point or 13.6 percent higher than the mean GPA (2.65) calculated for all invited students.

Figure B.8: Survey Participation and 2011-2012 Mean GPA

## Writing and Mathematics Centers

Have you utilized the Writing Center or Mathematics Center at TC Williams?

Figure B.27: Usage of Writing or Mathematics Center (All Grades)

$n=1,080$

Figure B.28: Usage of Writing or Mathematics Center (by Grade)

$\mathrm{n}=4$

$n=379$

During the 2011-2012 school year, approximately how many times did you visit the Writing and Mathematics Centers? (Specify number of visits for each center. If you did not visit, please enter 0.)

We note that, in calculating the following averages, we omitted responses of " 0. ."
Figure B.29: Average Number of Writing Center Visits (by Grade)

Figure B.30: Average Number of Mathematics Center Visits (by Grade)

The following questions only applied to students who acknowledged visiting the Writing Center in 2011-2012.

## Writing Center

Select your level of agreement with the following statements related to the Writing Center.

Figure B.31: "The Writing Center was easily accessible when I needed help."

| Level of Agreement | Grade |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |

| n | 783 | 2 | 305 | 275 | 201 |

Please expand on your reasons for not utilizing the Writing Center.
Among the students who responded, the following reasons proved most common:

- Did not need assistance with writing
- Preferred to get help from own English teacher
- Did not know about the Writing Center
- Lacked the time

The following questions only applied to students who acknowledged visiting the Mathematics Center in 2011-2012.

## Mathematics Center

Select your level of agreement with the following statements related to the Mathematics Center.

Figure B.36: "The Mathematics Center was easily accessible when I needed help."

| LeVEL of Agreement | Grade |  |  |  |  |

| n | 775 | 2 | 308 | 259 | 206 |

Please expand on your reasons for not utilizing the Mathematics Center.
Among the students who responded, the following reasons proved most common:

- Did not need assistance with mathematics
- Preferred to get help from own mathematics teacher
- Received help through Building Better Futures
- Had outside tutoring
- Did not know about the Mathematics Center
- Lacked the time
- Laziness or lack of motivation

## Brainfuse

Did you utilize the online tutoring program Brainfuse in the 2011-2012 school year?
Figure B.41: Brainfuse Usage (All Grades)

Figure B.42: Brainfuse Usage (by Grade)

The following questions only applied to students who acknowledged using Brainfuse in 2011-2012.

Did you utilize any of the following through Brainfuse? (Select all that apply.)
Figure B.43: Brainfuse Activities (by Grade)

| Activity $^{*}$ | GRADE |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | ToTAL | $\mathbf{9}^{\text {TH }}$ | $\mathbf{1 0}^{\text {TH }}$ | $\mathbf{1 1}^{\text {TH }}$ | $\mathbf{1 2}^{\text {TH }}$ |
| Writing Lab | $10 \%$ | $0 \%$ | $8 \%$ | $11 \%$ | $12 \%$ |

| Other (Please specify) | $11 \%$ | $0 \%$ | $6 \%$ | $14 \%$ | $8 \%$ |
| $n$ | 1,301 | 4 | 31 | 602 | 664 |

Students who selected "Other" mentioned the following Titan Choice activities:

- Art
- Auditorium
- Ben Carson Reading Room
- Building Better Futures
- Club meetings
- Cosmetology
- Dance studio
- Debate
- Electronics
- French
- Graphic imaging
- Homework
- Journalism lab
- JROTC
- Knitting
- Library
- Music enrichment
- Photography
- Reading
- Relaxing
- Retaking tests
- SAT Preparation
- Sign Language
- Studying
- Talking with friends
- TV Production
- Watching movies

Overall, how would you rate the quality of Titan Choice as a resource for improving your academic success?

## Saturday Learning Academy

Did you attend any Saturday Learning Academy sessions during the 2011-2012 school year?

Figure B.76: Saturday Learning Academy Participation (All Grades)

$\mathrm{n}=1,042$
Figure B.77: Saturday Learning Academy Participation (by Grade)

The following questions only applied to students who attended at least one Saturday Learning Academy session in 2011-2012.

How many Saturday Learning Academy sessions did you attend during the 2011-2012 school year? (Enter whole number.)

Figure B.78: Average Number of Saturday Learning Academy Sessions (by Grade)

What subject areas did you receive assistance in during Saturday Learning Academy? (Select all that apply.)

Figure B.79: Saturday Learning Academy Subjects (by Grade)

| Subject Area | GRADE |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | Total | $\mathbf{9}^{\text {TH }}$ | $\mathbf{1 0}^{\text {TH }}$ | $\mathbf{1 1}^{\text {TH }}$ | $\mathbf{1 2}^{\text {TH }}$ |
| English | $22 \%$ | - | $21 \%$ | $25 \%$ | $20 \%$ |
| Mathematics | $32 \%$ | - | $30 \%$ | $32 \%$ | $36 \%$ |
| Science | $16 \%$ | - | $19 \%$ | $18 \%$ | $8 \%$ |

## What are the main strengths of TC Williams?

Students most frequently mentioned the following items as strengths of TC Williams:

- Passionate teachers
- Teachers and staff eager to assist students
- Caring environment
- School culture emphasizes working together toward a common goal (i.e., student achievement and success)
- High expectations for all students
- Diverse community
- Variety of classes and activities
- Excellent facilities (e.g., gymnasium)
- Technological resources (e.g., laptops)
- Different academic supports (e.g., Writing and Mathematics Centers, Titan Time)

## What are the main weaknesses of TC Williams?

According to students, the following areas represented TC Williams' greatest weaknesses in the past school year:

- Large student body
- Crowded classrooms
- Impersonal environment
- Lack of discipline and respect
- Many students display a poor attitude, lack motivation, and remain disruptive.
- Continued disciplinary problems (e.g., fights)
- Inconvenient hours for some academic supports (e.g., Writing and Mathematics Centers)
- Too much emphasis on testing
- Not enough recognition of students performing well
- Some teachers appear disinterested.
- Student voices not heard by administrators

## What do you suggest could be done to improve TC Williams?

Students offered the following suggestions for improving TC Williams in the future:

- Better organization
- Stricter discipline
- Smaller classes
- Increase the availability of academic supports for struggling students
- Provide more resources for high achievers and highly-motivated students
- Make grading policies fairer
- Use teaching strategies and activities that engage students and make the learning process more enjoyable

## Student Achievement and IAP Perceptions

We also explored whether or not attitudes toward IAPs varied consistently with a student's rate of academic progress, as measured by the percentage change in his or her grade point average (GPA) between 2010-2011 and 2011-2012. The following growth ranges were used for this analysis:

- Bottom 25 percent - students whose GPA actually fell by 12.8 percent or more
- Middle 50 percent - students for whom GPA growth was greater than -12.8 percent but less than 5.5 percent
- Top 25 percent - students whose GPA grew by 5.5 percent or more

Figure B109: "Did you have an IAP during the 2011-2012 school year?"
(Students categorized by rate of GPA growth from 2010-2011 to 2011-2012)

$n=241$

$n=478$

$n=241$

Figure B110: "I was satisfied with the process used to create my IAP" (by GPA Growth)

Figure B111: "Overall, I was satisfied with my IAP" (by GPA Growth)

Figure B112: "Overall, how would you rate the quality of the IAP as a resource for improving your academic success" (by GPA Growth)

| 0\% | 20\% | 40\% | 60\% | 80\% | 100\% |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Top 25\% of Students ( $\mathrm{n}=162$ ) | 35\% |  | 46\% |  | 20\% |
| Middle 50\% of Students ( $\mathrm{n}=322$ ) | 32\% |  | 47\% |  | 21\% |
| Bottom 25\% of Students ( $\mathrm{n}=131$ ) | 34\% |  | 50\% |  | 17\% |

## Appendix C: Focus Groups

## Methodology

On September 19, 2012, Hanover Research conducted a series of focus groups on the King Street campus of TC Williams High School. Each session lasted approximately 30 minutes and explored a variety of topics related to initiatives implemented in 2011-2012 as part of the Transformation Process. More specifically, Hanover met separately with three groups of students, one group of teachers, and one group of counselors. When choosing participants, the school selected at random from pools of students, teachers, or counselors who met the following criteria:

- Student Focus Group 1: Students in grades 11 and 12 who completed IAPs and attended TC Williams for all years of high school to date
- Student Focus Group 2: Students in grades 10 through 12 who participated in one or more of the academic support programs made available in 2011-2012
- Student Focus Group 3: Students in grades 10 through 12 who enrolled in the ELL and/or International Academy program in 2011-2012 and who did not require a translator
- Teacher Focus Group: English and mathematics teachers who worked at the school in 2011-2012
- Counselor Focus Group: Counselors who worked at the school in 2011-2012

## Consent Form

TC Williams collected parental permission forms for all participating students. In addition, prior to each focus group, Hanover Research required all participants (students, teachers, and counselors) to sign a consent form, which is reproduced below.

## T.C. Williams Transformation Discussion Group Guidelines

You are invited to participate in a 30-minute small group discussion to talk about your experiences at T.C. Williams during the 2011-2012 school year. The purpose of this discussion is to gather feedback from [students/teachers/counselors] about programs and academic support at T.C. Williams, including Individual Achievement Plans (IAPs), Titan Time, and tutoring.

This discussion will provide you with the opportunity to share your experiences at T.C. Williams in a confidential setting. Discussions will be facilitated by Hanover Research, an outside organization working on behalf of the Alexandria City Public Schools. Feedback
given during the discussion will not be attributed to individual students and your name will not be used. The only exception to this protection of confidentiality is if you discuss plans to commit a crime or harm yourself or others.

Hanover Research will take notes during the discussion in order to ensure accuracy of reporting. Your name will not be recorded in these notes.

Participants will also keep this discussion confidential. In agreeing to participate in this discussion, participants also agree to not reveal the identities of other participants or to discuss any comments made during the discussion.

Feedback will be used in a fall 2012 district report about the T.C. Transformation process during the 2011-2012 school year. This report along, with other information collected, will be used to make programmatic, procedural, and service related decisions regarding the T.C. Williams Transformation moving forward.

Your participation is voluntary and there is no penalty of any kind if you choose not to participate. If you decide to participate, you are free to leave the discussion at any time. You may also decline to answer any questions.

## Consent Form

I have read and understand the guidelines above about the facilitated small group discussions taking place at T.C. Williams High School on September 19, 2012 and
___ I agree to participate
__ I do not agree to participate
Name (Print):

## Signature

If you have any questions about this study please contact David Serensits (david.serensits@acps.k12.va.us / 703-575-3414).

## Project Evaluation Form

Hanover Research is committed to providing a work product that meets or exceeds member expectations. In keeping with that goal, we would like to hear your opinions regarding our reports. Feedback is critically important and serves as the strongest mechanism by which we tailor our research to your organization. When you have had a chance to evaluate this report, please take a moment to fill out the following questionnaire.
